

TRAIN WITH DR. GREGORY T. LAWTON

Your Invitation to Excellence, the Journey Continues!

From Gregory T. Lawton, D.N., D.C., D.Ac.

Please Consider this your invitation to professional excellence. I can only think in terms of superlatives when I reflect upon the accomplishments of the American Medical Massage Association. Here is an organization that since the late 1990's has established credible educational, training and credentialing criteria and standards for medical massage therapists. Here is an organization that has trained, tested, and certified over 12,000 medical massage, medical manual therapists, and medical acupuncturists. Here is an organization that was the first within the massage community to adopt and to implement strict evidence based scientific scope of practice standards. Here was the first medical massage organization to create a statistically validated medical massage national certification exam (Michigan State University) and to achieve acceptance of the exam in several states towards massage licensure. Here is one of the first professional organizations for massage therapists to achieve state approval and licensure for its training programs. And that is not half of it!

We invite you to join our “journey to excellence” through AHS and AMMA state licensed training seminars in Medical Massage Therapy, Scandinavian Mobilization Therapy, and Medical Acupuncture/Dry Needling. The AMMA offers introductory to advanced training along with national board credentialing. Many of our massage CE programs are approved by the NCBTMB. So what are you waiting for? Come on and take the journey!

We extend this “invitation to excellence” to all of our colleagues in the allied health, medicine, chiropractic, massage, nursing, naprapathy, physical therapy naturopathy and acupuncture disciplines. What you learn from us will make you a better and more successful practitioner!
